Front-End Web Developer

Front-End Web Developer with a background in Design. Attended the University of Arizona, where I received skills in HTML, CSS, JavaScript, Bootstrap, jQuery, React and GitHub technologies. Passionate about web development because front end design speaks to me. The creativity of the field demands new and ever challenging skills. Like developing user-facing code and bring customer concepts to life. I enjoy playing with javaScript functions, responsive images and bootstrap 4 responsive layouts. Front-End uses my graphic design skills with the coding principles that are in demand.

Food Service Technician

Perry High School Kitchen

- Prep, feed and clean up for students at Perry High School kitchen 10 yrs.
- Changed positions many times when others have called in sick at a moment notice.

Household Executive

- Managed house and family for 29 yrs.

Computer Technician

Bailey Controls

Earned the lead computer technician (CT) position on several large projects with tight time frames and was trusted to handle small projects on my own. Assisted in the development of a program utilizing DBase tools that increase the productivity of all computer technicians.

- The program saved 140 hours the first time it was used. The program was such a success that it changed the method engineers used to design this system.
- This program was incorporated into the Bailey EDE tools which all computer technicians used.
- Requested to be on the critical team for major project with tight deadlines.
- Required to travel to customer site, work lots of overtime, make things happen.

University of Arizona,

Coding Bootcamp 24-week program

University of Cincinnati - Cincinnati, Ohio

Bachelor of Science

Fashion Design
